"AN OFFER YOU CAN'T REFUSE"

It has now become extremely attractive to acquire High End Systems equipment. Together with Leasing Services, High End Systems is offering you the possibility of paying for its equipment in 24 monthly installments, free of any interest charge. So, no budgetary issues, no liquidity problems, no compromising on equipment choice, and no impact on your existing credit lines.

How does it work?

We can't make it any easier:

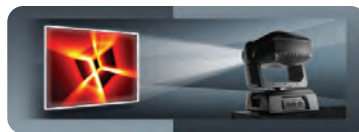

Suppose you wish to acquire High End Systems' equipment for an amount of £ 48,000 (GBP). You simply divide the amount by 24 and you know that the monthly installment for the next two years will be £ 2,000 (GBP)*. At the end of term, you acquire title to the equipment for a minimal amount. No small print, no hassle, no indexation for inflation or for changes on capital markets, etc.

We think it's a fantastic deal for you!

You acquire the equipment of choice and you preserve your cash for other purposes. Or you simply leave it in the bank and you earn some interest. Special financing is available only for High End Systems, Inc. equipment and applies to dealer cost. Any other charges, such as non- High End equipment will be financed at market rate.

If you wish to obtain more information on the ZERO% FINANCING PROGRAM and evaluate how you and/or your customers can benefit, please send an e-mail including your contact details to hes@leasingservices.nl and one of our financing specialists will contact you within 24 hours.

*Offer subject to credit approval.
