

Dear ~~Hum Heads~~, Sound Team,

# You're Welcome

Introducing the SolaFrame Theatre from High End Systems, the industry's first automated LED luminaire to deliver completely silent operation. The best thing automated lighting has done for sound design since, well, ever.

- Engineered with no fans
- Bright White LED Source and no lamp changes, ever
- High CRI, gorgeous colors, impeccable dimming
- Counts past two

# SolaFrame Theatre

SolaFrame Theatre is the industry's first automated LED luminaire to deliver completely silent operation. Engineered with no fans, SolaFrame Theatre features a full effects package including framing shutters, high CRI, gorgeous colors, and impeccable dimming. SolaFrame Theatre is a natural fit for designers that work in theaters and other venues where fixture noise is simply not acceptable.

Poised to (quietly) change the world, SolaFrame Theatre features modular construction, extremely low power usage and other innovations such as High End Systems' patented Lens Defog system, making it the most versatile LED automated spot luminaire available.

- Bright White LED engine
- 440W High CRI engine produces 15,000 field lumens
- Fanless, silent operation
- 540° x 265° movement
- CMY / CTO- linear color-mixing system
- 7-position replaceable Color Wheel
- Framing system for total control of beam shape
- Iris, Light Frost, Linear Four-facet Prism and 7°-42° Zoom
- 8-position plus open interchangeable Gobo Wheel
- 7-position plus open Rotating Gobo Wheel
- Continuously Variable Animation Wheel

*"I was just amazed that the fixture was dead silent. We started using these fixtures and were just blown away!"*

Stan Kaye - Professor, lighting designer, theater consultant
